

# CloudDrive 2.0 Data Sheet

<b>A. <u>Capacity Bar</u></b>	How much space do I have left? You will always know with our Capacity Bar. No more checking properties and having to delete files. Our capacity indicator shows Gigs and Megabytes available on the drive and in the cloud at all times. Informative!
<b>B. <u>About Button</u></b>	Frequently asked questions. Account renewal, Back up services, Data recovery. There is no shortage of information on CloudDrive. What makes this drive so unique is it's easy to use application. User Friendly!
<b>C. <u>Settings Button</u></b>	Register your drive, set up a password, and set your custom preferences. CloudDrive can be customized to operate the way "You" want it to. Customizable!
<b>D. <u>Main Menu Tab</u></b>	The Main Menu offers a clear, unique, and easy way for the user to access both the files they want to keep directly on the USB portion of the drive, and on the Cloud Portion. They can click and open any file or folder any time they want. Easy Access!
<b>E. <u>Customized Logo Box</u></b>	Finally you can add your client's logo to the inside of the drive. Your client's logo will be front and center every time the drive is used. Better Branding!
<b>F. <u>WeDirect URL Link</u></b>	Talk about increased web traffic. The logo space is linked to any website your client desires. One quick click and the user is taken to the designated website. Better Traffic!
<b>G. <u>Create/Rename/Delete</u></b>	All the functions at your fingertips. Add, delete, modify, rename, create and trash your files easily with our on screen function icons. User Friendly!
<b>H. <u>Cloud Space Indicator</u></b>	Capacity / Upgrade button. CloudDrive is purchased and loaded with a pre-determined amount of cloud space which is indicated in the cloud icon. The amount of purchased memory can be easily upgraded to a larger capacity, up to 64 GB in the cloud for a very nominal fee. Just wave your cursor over the icon and upgrade options will appear. User Customizable!
<b>I. <u>Remaining Term</u></b>	One whole year in the cloud! That's what you get with this new technology. Once activated by the user a countdown begins, but don't think that in one year that it, your client has the ability to renew the current amount of pre purchased memory or upgrade to a larger capacity at any time. Branding For Life!
