

**TOP SECRET**

**Revealing  
Insider  
Information**

**What if they don't like any of the drives I've shown them?**

Let's find one that they do like. Our advertised product line showcases quite a few drives, however, our Sourcing Manager can access thousands of casings that could fit your clients goal. Just call or email us what your client would like to have, and let us get to work for you.

**Can We Do A Custom Project?**

Absolutely! We have kicked it up a notch when it comes to Custom Projects. We have hit a new volume with our custom projects that allows you to capitalize on our volume discounts. We can produce a custom molded project for you at a price that is very close to our standard line. Its so simple too. Just send us a picture of what you would like turned into a flash drive. We'll have a virtual mock up for you the next business day.

**What if my client is suffering from Sticker Shock?**

There are still a few end user clients out there that think a flash drive is \$1 or so. So when they see your quote, they could pass out. We have a much less expensive option to offer your clients, if you find yourself in this scenario. It offers some auto-launching functionality that can drive their message home. Check out more facts on our [Web Key Solution](#).

**Capacity Capabilities**

- 4 GB can hold up to 1000 Songs
- 4 GB can hold up to 817 Pictures (@ 14 megapixel)
- 4 GB can hold up to 6 hours of Video (@ 7 megapixel)

**Cheat Sheet**

Download our [Cheat Sheet](#) and post it in your office. You'll know all the answers to all of their questions.
